EDITING/PUBLISHING FEE	\$

Payment Terms: Cost of going from manuscript to marketplace ranges from \$2,500 to \$7,500, depending on word count, layout and design, and editing. One-third of payment is due at time of agreement. | One-third of payment is due at time manuscript is ready to send to designer for interior layout and cover design. Final payment is due at time the book is uploaded to Amazon. Timeline: Approximately 4-6 months to go from delivery of manuscript to finalized published book, available through Amazon. This timeline is flexible, but all efforts will be made by MEE to meet or exceed dates given.

This pricing is for original manuscript submitted by **(Authors Name)**, which contains **(Word Count)** words. This pricing is for a **(Size)** layout book, containing 5 or less images, tables, or illustrations. Pricing will be adjusted for deviations from these specs. It is assumed that the original manuscript submitted is the final manuscript and all work provided by MEE will be done on the original manuscript submitted. Additional text added to the original manuscript after work has begun will incur additional charges, unless during the editing process, MEE determines additional text is needed for clarity in specific areas. (Translation: if the manuscript is not complete, do not submit manuscript to MEE to begin work. This requires additional work and will require additional fees.)

Note: MEE Books will partner with the author to produce a manuscript free of errors. Once the manuscript has been approved by author, it will be submitted to designer to create book cover and interior layout. Once layout and cover are complete, minor changes and edits, limited to a maximum of 25 changes, can be made to layout design. If excessive edits (more than 25) are needed at this point, additional charges will be applied. (Excessive changes can result in an additional charge ranging from \$250 to \$800).
